

Matt Stone

For nearly two decades, Matt Stone has transcended the role of a mere real estate broker – he has been a trusted advisor, innovator, and out-of-the-box thinker, consistently delivering exceptional results for his clients and agents. With over 18 years of experience and transactions exceeding \$1.5 billion, Matt's expertise is unmatched. In 2023, Real Producers Magazine ranked him 2nd out of 8,000 agents in Charlotte, a testament to his remarkable results.

Matt's entrepreneurial journey began at the age of 13 when he started a car detailing business from the parking lot of his father's church. By 16, his cold calling efforts had landed him an internship with a custom homebuilder. At just 18, Matt became one of the youngest licensed real estate brokers ever in the Carolinas. In 2009, he founded his own brokerage and rental management business, quickly amassing a portfolio of over \$100 million in properties under management. To expand his expertise, Matt obtained a general contractor's license in 2014 and has since remodeled and built homes across the Carolinas, Florida, and Spain.

Matt provides a breadth of knowledge that is unmatched. From insights encompassing construction, budgeting, timelines, and local regulations to having personally renovated numerous properties and guided developers on projects of varying scales, Matt brings a unique perspective and vision to the table. As an investor himself, he possesses intimate knowledge of property pro formas, landlord-tenant law, use optimization, 1031 exchanges, and tax implications.

Today, Matt leads a powerhouse team of brokers, meticulously selected and trained to meet and uphold 'The Stone Standard.' The team's success is achieved, in part, by leveraging cutting-edge technology and our bespoke property marketing program, "The Stone Selling System." With nearly 1,000 five-star client reviews across various platforms, the team is steadfast in its mission to deliver an unparalleled client experience while preserving the personal touch.

Jasmine Garcia picked up the phone when we called the agency, as recommended by a friend and since then, she became our realtor. We found 5-6 houses that we wanted to view on the same day since we are from out of state and Jasmine helped us to arrange it. She's very responsive, very helpful and she even helped keep an eye on our toddler when we were touring the houses. Thank you Jasmine!

Unlocking the full potential of our marketing requires precise pricing. When your property is strategically positioned in the market, you assume control, enabling us to secure the optimal sale price and potentially multiple offers. With this commanding advantage, we excel in negotiations, ensuring you attain the best possible price and contract terms that perfectly align with your objectives.

The power of TIME ON MARKET

To sell your house quickly, it's crucial to attract qualified buyers within the first days on the market, as prolonged listing periods can diminish perceived value. Pricing your home strategically to appeal to motivated buyers can incite competitive bidding, often resulting in higher offers and swift sales—a concept known as Price Positioning.
